JSE Consultation Paper – JSE Listings Review

The JSE issued a consultation paper on various proposals regarding its listings framework, considering recent international developments and internal JSE initiatives. The consultation paper serves as an innovation platform to promote capital market activity and competitiveness.

To attract companies and securities to list on its exchange, the JSE must ensure that it remains relevant and has deemed it necessary to review its listings framework to establish what role it can play to retain and attract more listings and capital markets activity.

The JSE wishes to actively engage with market participants on proposals, read with its current work in progress, on how it can better address market needs and expectations. The JSE welcomes views and opinions, through an inclusive and transparent approach, in order to advance the relevance and attractiveness of the South African financial markets.

The JSE Consultation Document along with the Comments Schedule are available on the JSE's website:
