UPDATE ON AVAILABILITY OF EQUITY DERIVATIVES AND CURRENCY DERIVATIVES MEMBER RANKING INFORMATION

Post ITAC, the JSE has been working on producing EDM & FXM member ranking reports, consistent with pre-ITAC statistics and format. Concerns about the accurate mapping of data and accuracy, have unfortunately been holding up the availability of members ranking information for the Equity Derivatives and Currency Derivatives markets.

Due to the sensitivity and importance of member rankings, as well as the complexity of the problems, the JSE is making sure, through detailed analysis and testing, that the corrections will fully address the problems.

The corrective actions are receiving high focus and the JSE will let trading members know as soon as the updates and revisions are finalised and we are in a position to make member ranking information available.

The JSE apologises for the inconvenience that this is causing to your operations.

Market / Service:

JSE Derivatives Markets:

- Equity Derivatives Market
- Currency Derivatives Market

Environment(s):

Production
