DELAY OF THE EQUITY DERIVATIVES AND CURRENCY DERIVATIVES NLMD PRODUCTS DISSEMINATED 28 FEBRUARY 2020

The JSE unfortunately experienced technical problems on the evening of Friday, 28 February 2020.

The problems were due to a priority incident whereby market events had to be extended to accommodate clearing members, resulting in:

- Delay in Clearing Members to perform balancing activities;
- Delay of the End of Day process;
- Delay of the production and dissemination of Equity Derivatives (ED19.Zip and ED.Zip) and Currency Derivatives (CD.Zip) files

Further root cause of this specific problem is currently being assessed and measures will be put in place to try and prevent recurrence of this problem.

We apologise for the impact to your operations and resultant inconvenience to your data clients.
