9 April 2020

DECOMMISSION OF THE MTN RANGE IP ADDRESSES - EFFECTIVE 29 MAY 2020

Clients are advised that this is reminder that the JSE will be decommissioning the MTN range IP addresses **41.x.x.x MTN** with effect from **29 May 2020**.

The reason for decommission is that the JSE migrated from MTN to a different Internet Solution in 2019.

Old MTN IP address ranges were kept enabled to allow clients connecting to these IP addresses sufficient time to configure their applications the URL's in the IDP connectivity document.

For ease of reference, the attached IDP connectivity document is provided to you in order to be able to access the correct URL and configure your systems accordingly.

Market / Service:

JSE IDP Service

Environment(s):

Production
