### DISASTER RECOVERY TEST FOR MTS TRADING PLATFORM

Please note that a Disaster Recovery Test for all of the MTS trading platforms (BV, CMF, MMF and PAF) will take place on Saturday, 8 June 2019.

The plan is designed to test the recovery from the Production environment (the primary site) to the disaster recovery environment (the secondary site) for such platforms.

The objective of the test is to verify the correct recovery set up of the relevant applications used and the consistency of trading activity done before and after the outage.

The rollback process is NOT part of this Disaster Recovery Test.

All MTS participants are encouraged to take part in the DR test session.

Full details of the upcoming disaster recovery test session can be found in the Technical Bulletin attached.

#### Service:

MTS Bond ETP Market

#### Environment(s):

Production
