MARKET PARTICIPANT TEST WEEKEND 30 MAY 2020 CHANGE IN SCHEDULE

Clients are reminded that Saturday, 30 May 2020 has been made available as a Participant Test Weekend (PTW) in the production environment.

Due to the JSE Trading Upgrade Dress Rehearsal also taking place on 30 May 2020, clients are advised that connectivity for the PTW will start from 14h30.

During this test the below Market Services will be brought up for Trading and Market Data:

- Equity
- Equity Derivatives including RTC
- Currency Derivatives including RTC
- Agricultural, Interest Rate and Bond Market (Download Period Only)

All clients **NOT** participating in the PTW are requested to ensure that their Trading and Information **systems are shut down** during the weekend to ensure that they **do not receive and process any test messages** published during the testing period.

Please note that due to the dress rehearsal testing activities, there may be test data carried over into the RTC application.

Market(s)/ Service(s):

Out of Scope

Non-Live Market Data will be out of scope for ETE testing as there are no changes to dissemination and data products.

The test approach will be unscripted but will include scheduled testing events e.g. Futures Close-out and Month End. The detailed test plan will be communicated shortly.

Please note: The RTC Application version available in the ETE environment is version 1.32 which includes functional changes but no API interface changes (refer to Service Hotline 123/2020). This version has been successfully tested with the current production version of the trading engine (go live of RTC 1.32 scheduled for 15 June 2020) and we require customers to verify and test compatibility with the upgraded trading engine scheduled for July 2020 in this phase of testing.
