### AN UPDATE ON THE BOND ETP IMPLEMENTATION ROADMAP

A Bond ETP Steering committee was held on Tuesday, 24 July 2018 and the following points were noted which we want to bring to your attention:

- The trading and settlement on the R2023 instrument is going well with 7 Primary Dealers trading on the ETP platform.
- A few Surveillance data issues were experienced which the JSE is in the process of resolving.
- In light of the above it was recommended that the R2048 activation gets postponed until the 1st of August.
- A recommendation was also made to add the R 209 and R2032 (non-liquid obligated bonds) to the platform on the 1st of August 2018, together with the R2048.
- The targeted date to start trading on the R186 is then envisaged for the 15th of August 2018 due to the public holiday on the 9th of August 2018.
