JSE UPCOMING RELEASES REMINDER

As per previous communication regarding upcoming JSE Releases (Service Hotline 217/2019), sent on 22 July 2019, we would like to provide an update on the timelines and testing environment information.

Customer Test Service (CTS)

The changes will be deployed to the CTS 1A environment by latest Monday, 5 August 2019. The CTS 1A testing environment will be available for client testing.

The targeted go-live date for this release is **Monday, 2 September 2019** subject to no major issues arising.

Kindly contact the JSE Client Services Center for the standard enablement procedure.

Updated Services Documentation (ICEBERG FUNCTIONALITY)

Iceberg functionality has been included in the updated API documents, which are available on the JSE website under 'Next Release – Phase 2 (Icebergs)' in the 'Services Documentation' section at the below link:

<https://www.jse.co.za/services/itac>

The changes that include iceberg functionality will be deployed to the CTS 1A environment by latest Monday, 2 September 2019. The CTS 1A testing environment will be available for client testing.

The targeted go-live for this release is Mid-November, subject to no major issues arising.
