INTEGRATED TRADING AND CLEARING (ITaC) PROJECT – UPDATE ON JSE FREEZE PERIOD

Following Market Notice 104A/2019 and 104B/2019 confirming that the go live date of the ITaC project is 29 April 2019, the JSE would like to provide an update on the relevant freeze period dates.

The freeze period which impacts all JSE Markets and Services will end on 20 May 2019 subject to a smooth implementation. As communicated previously, this will ensure that there is a proper bedding down period for the new systems and complete focus by all the market participants on this significant implementation.

If the implementation requires a shorter bedding down period then the freeze could end earlier. A reminder that the next PTW is scheduled for 11 May 2019.
