CHANGES TO JSE SENS MARKET DATA PRODUCTS – POSTPONEMENT TO 24 JUN 2019

In response to requests from clients that have been expending time and focus in supporting the JSE ITaC project, the JSE has decided to postpone the go-live of the changes from **20 May 2019** to **Monday, 24 June 2019** to allow more time for development and testing.

As a reminder, the changes will affect JSE and NSX market announcements of the following type:

- Audited Results
- Interim results
- Late publication of financial information
- Preliminary Results
- Quarterly results
- Reviewed results
- Unaudited results

For direct Live SENS subscribers, the JSE has been providing test data, comprising a mix of JSE and NSX announcements, via the JSE Client Test System. The test data is published on a continuous basis every 4 minutes. For direct End of Day SENS subscribers, the JSE has been providing test data, comprising a mix of JSE and NSX announcements, via Text and PDF test data files on a test folder on the JSE's IDP FTP server.

If you have questions or problems about connecting to the test systems please contact our Client Services Centre via customersupport@jse.co.za who will provide assistance.

The JSE has provided the following documents via earlier notices to assist your analysis, development and testing

- Volume 08 – Regulatory News Feed (Fast – UDP)
- JSE SENS Real Time Overview Guidance Note
- JSE SENS Real Time NewsML

If you have any questions, please send them to mdprojects@jse.co.za

Service:

Live and End of Day SENS Market Data Products

Environment(s):

Production
