Following a request from market participants, please note the **MAR16** expiries for WMAZ and YMAZ contracts will be introduced for trading on Wednesday 25 February 2015.

Since the JSE is still in a consultation period around finalizing the SOYA delivery points for the 2016/2017 marketing season we will most likely only introduce the new marketing season expiry months towards the end of March 2015. The JSE is waiting for the Wheat Forum to publish a press release around the wheat market developments which is expected later next week; the JSE will then introduce the Dec15 and Mar16 expiries at the same time. At this point we expect these to be introduced by Friday 27 February 2015. Thank you for your patience in this regard.

Where applicable the storage rates and location differentials for the various products have not being finalized and will only be available closer to the new marketing season.

Participants are again reminded that the JSE trades the underlying grades of product as published by the Department of Agriculture, Forestry and Fisheries in South Africa, should any changes be made to these they will be applicable to the derivative contract(s).
