SUBJECT: INTRODUCTION OF THE SUNFLOWER SEED (SUNS) 2016-2017 EXPIRIES

Name and Surname: Chris Sturgess

Designation: Director Commodities & Key Client Management

Dear Stakeholder,

You will recall that the JSE has held back the listing of 2016 expiries for sunflower seeds, pending industry input and suggestions around the SUNS contract going forward. Let me thank those members who had requested to trade the 2016 expiries earlier but who waited patiently for the new expiries. We cannot extend the input period any further and so the JSE will therefore proceed to list the Mar 2016, May 2016 and Jul 2016 SUNS expiries on **Monday 29 June 2016 for trading Tuesday 30 June 2016**.

Please take note that there will be no changes to the SUNS contract design for the 2016/2017 marketing season trading 50tons of FH grade basis Randfontein, the status quo remains for another season.

Storage rates for the 2016/17 marketing season and location differentials will be made available as we get closer to the new marketing season. Participants are again reminded that the JSE trades the underlying grade of product as published by the Department of Agriculture, Forestry and Fisheries in South Africa and should any changes be made to these they will be applied relevant derivative contract(s).

Should we receive requests to consider changes to the contract, clients are assured this will involve extensive consultation with all role players.

This Market Notice will be available on the website at <https://www.jse.co.za/redirects/market-notice-and-circulars>
