Date: 3 July 2020

**SUBJECT:** CHANGES TO INITIAL MARGIN REQUIREMENTS FOR DERIVATIVE MARKETS

**Name and Surname:** Alex Comninos

**Designation:** Head of Risk

Dear JSE Stakeholder

Several margin management measures were taken to manage the extreme volatility experienced during the Covid-19 related market crisis, and elevated levels of systemic risk. The JSE started lowering margin levels in a phased approach since the end of May after a decrease in volatility was observed. Margin requirements will now be adjusted back to a 99.7% confidence-level with volatility experienced during the crisis incorporated in the models. The adjustment will result in an overall lowering of initial margin from current levels, mainly on oil derivative contracts.

The new initial margin parameters for the Commodity Derivative markets, to be implemented Friday, **3 July 2020**, can be found in these directories:

- APD – [https://www.jse.co.za/downloadable-files?RequestNode=/Initial Margin Parameter Data/Official Initial Margin Parameters/APD](https://www.jse.co.za/downloadable-files?RequestNode=/Initial%20Margin%20Parameter%20Data/Official%20Initial%20Margin%20Parameters/APD)

All margins will be published whether they are changed or not with the date of the implementation in the file name.

We will continue to monitor market volatility very closely and may need to implement further margin adjustments if market riskiness demands it.
