**The following EDM enhancements / fixes have been addressed in this release:**

1. A hyperlink has been added to the Nutron front end which points to the Dividends spreadsheet used in the exchanges daily fair value calculation. The link can be found under About – Downloads.
2. To clarify confusion surrounding the 3 different Position Views, their descriptions have been amended to the following
  - EDM View Positions (Dealer level)
  - EDM View Con Positions (Sub-account level)
  - EDM View Consolidated Member Positions (Member/Client level)
3. The ability to download files for more than one day has been added to the Print/Transfer functionality. The ability to create files for the present and previous day is allowed during normal trading hours, while the new functionality to select any other day is only available outside normal trading hours i.e. Download only period.
4. Windows have been added to Nutron for the Top 40 and Top 100 SSF's which can be found under the Trading windows.
5. The ability to do Report only transactions between the Executing Member directly with Tripartite clients has been added to Nutron
6. Various issues regarding the loading of new clients and editing of client information has been resolved which includes saving updated information like email addresses.
