Equity Derivatives - Nutron Front End Patch

Since the mandatory upgrade of the Nutron front-end on Monday, 16 May 2011, many of our market participants have been experiencing;

1. Slow responses when trading on the Nutron front end
2. Disconnects from the Nutron front end

The JSE would like to apologise to all our market participants for these technical issues. In order to resolve these issues, all market participants are hereby requested to upgrade their Nutron front-ends (Version 1.0.0.26694) with the two patches to be found at:

http://www.jse.co.za/DownloadFiles.aspx?RequestedNode=DownloadableDocuments/Safex/NUTRON_May2011_Patch

The patches to be downloaded are:

- **sxhndglob.dll**
- **sxhandler.dll**

Although this is not a mandatory upgrade, the JSE would like to encourage all users to download these patches as no further upgrades will be taking place before the June 2011 close-out.

If you have any queries, please feel free to contact derivativestrading@jse.co.za
