

## Market Notice

**Number:** 263  
**Date** 12 October 2011

---

### JSE TradElect and InfoWiz Service Hours Changes BST to GMT

JSE TradElect and InfoWiz users are advised that the United Kingdom's British Summer Time (BST) is due to end on Saturday, 29 October 2011. They will be reverting to Greenwich Mean Time (GMT) from Sunday, 30 October 2011. The time difference between South Africa and the United Kingdom will therefore be 2 hours instead of the current 1 hour.

The impact of the time change on the JSE TradElect and InfoWiz services will be minimal as these time differences were taken into consideration when designing the solution. Users are advised to determine the impact to their environments and prepare their systems and environments to accommodate the change.

The aim of this reminder is to summarise the business impact to JSE services namely, JSE TradElect and InfoWiz.

Please note that all times referred to in this gazette are in South African Standard Time (SAST). Service times impacted by the change are **highlighted in bold**.

### Connection Times

Both the JSE Secure Interactive Interface (SII) and Interactive Re-Request Interface (IRI) connection start and end times are affected by the time change.
