JSE Equity Market Trading and Information Technology Change Notification – Change to the JSE Level 2 Snapshot Market Data Channel

As indicated previously to clients, the JSE has been investigating the bandwidth impact of providing a FIX Level 2 Snapshot Market Data Gateway for the JSE Market. Due to the high bandwidth required for this service, we advise clients that we will not be providing this service.

The current JSE Market Data Gateways are as follows:-

- JSE FIX/FAST Level 1 BBO
- JSE Level 2 Snapshot Gateway – **to be removed**
- JSE Level 2 Full Depth ITCH Service
- JSE Indices Gateway
- JSE Regulatory News

The JSE is busy with the necessary updates to the impacted JSE User Specification documents and will advise once the updated specifications are available. The specifications are at the following website link:-
