

Market Notice

Number: **Y609**
Date: **22 February 2011**

Dear Stakeholder

The JSE would like to advise all front end and API users that the JSE will be rolling the Interest Rate and Currency Derivatives trading and clearing systems back to the version that is currently in the production environment after the BESA Integration Dress Rehearsal on 26 February 2011.

This means that for the purpose of the Dress Rehearsal the new version of the NUTRON front end has to be installed, but after completion, and for market startup on 28 February 2011, the current production front end once again needs to be used.

Details are as follows:

All users participating in the dress rehearsal on 26 February 2011 need to connect using version **1.0.0.26377** of the NUTRON front end.

After completion of the dress rehearsal and for normal trading operations on Monday 28 February 2011 the current production version of the NUTRON front end once again needs to be used (**1.0.0.25528**).

To make this process as easy as possible we suggest to provide access to the dress rehearsal version of the front end in the following manner:

1. Download the Dress Rehearsal Version of the front end from the following link:

http://www.jse.co.za/DownloadFiles.aspx?RequestedNode=DownloadableDocuments/YieldX/BESA_DR1_NUTRONFrontend

- This location will contain a compressed archive
 - Download and save this file to your local drive
2. Open and extract all files in the compressed to a new folder on your drive
 - E.g. Create a folder on your c:\ drive and name it DRFrontend
 - Extract all files and folders from the downloaded archive into this folder
 3. The new folder should now look something like this:

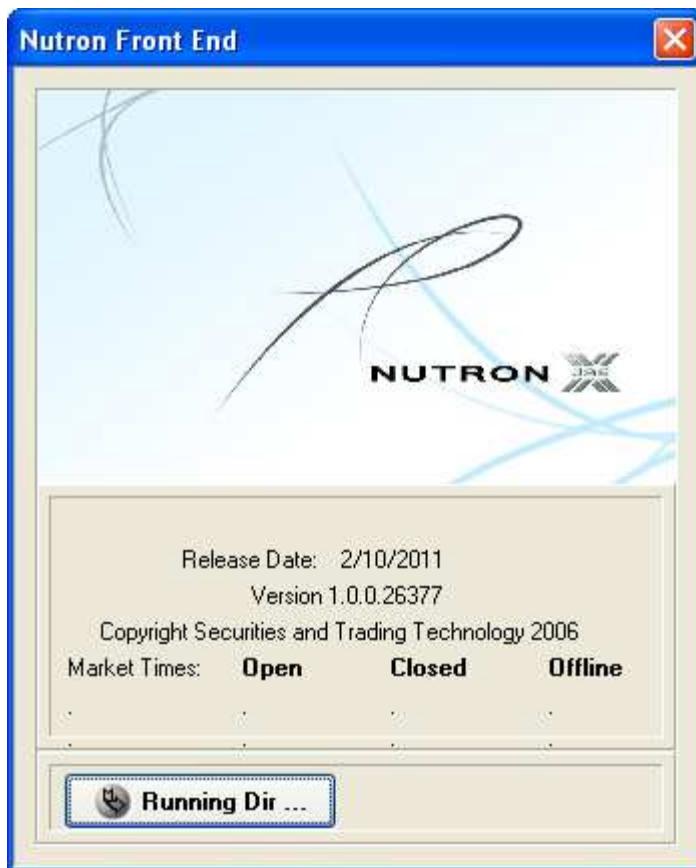

JSE Limited Registration Number: 2005/022939/06
One Exchange Square, Gwen Lane, Sandown, South Africa.
Private Bag X991174, Sandton, 2146, South Africa. Telephone:
+27 11 520 7000, Facsimile: +27 11 520 8584, www.jse.co.za

4. Locate the file called `atsmainp.exe` in this folder
 - Right click on it and select Send to Desktop (create shortcut)
 - Locate the new shortcut created on your desktop

5. Double click the new shortcut to launch the front end
 - Verify you are opening the dress rehearsal version by clicking About / About
 - The screen below will appear – verify the version number is 26377

6. Finally verify your connection settings are configured to point your front end to the Production environment for the Dress Rehearsal:
 - You may need to add Default windows under Config / Add Default Windows
 - Select Config / Set User
 - Select a profile or type in your own profile name

- On the next screen capture your username and connection information for the production environment as per below

7. Once complete you can verify you can successfully login to the production environment
 - This version will only be granted access on 26 February 2011
8. After the dress rehearsal (Monday 28 February) use your production shortcut to access your old version as before the dress rehearsal
