---

Members are referred to Market Notice 013/2017 issued on 13 January 2017 where members were advised of the impending plan to decommission access to the Global Market due to the implementation of ITaC targeted for Q4 2017.

The JSE is targeting to complete the migration and decommissioning of Global Markets in Q2 2017.

Equity Derivatives Market (EDM) member firms currently carrying positions in the Global Market products would need to be ready to transfer the clearing of these positions to either their existing Equity Derivatives clearing member who will be required to run an additional end of day to balance the commodity positions or consider approaching a Commodity Derivatives clearing member to assist with clearing of these positions.

**EDM members should please note that there will be no need to secure a Commodity Derivatives membership in order to access the foreign referenced commodities, access will be granted under the existing EDM membership**

All EDM members who wish to continue to access Global Markets products will need to notify the JSE so that all the key business and technical aspects can be addressed before the implementation date. Please send through your confirmation to [Customersupport@jse.co.za](mailto:Customersupport@jse.co.za) by no later than 28 February 2017. The JSE will then engage with each member firm and their clearing members to ensure the transition is facilitated as smoothly as possible.
