SUBJECT: PRIMARY MARKETS – 2016 Listing Fees

Name and Surname: Donna Oosthuysen

Designation: Director

Dear JSE Client,

The JSE's listing fee price changes, effective 4 January 2016, are aimed at limiting the total cost to issuers. In order to ensure that our market is more closely aligned with international markets and to reduce the imbalance in fees between small and large companies, only the cap for large companies with a market capitalization over R1.5 billion will increase by more than inflation. Subsequently, the following fees will remain unchanged for 2016:

- AltX Annual and Initial listing fees
- Warrants and Structured product annual fees will remain unchanged; however the billing model is under review to ensure that the JSE remains relevant and competitive at the global level. Any changes will be communicated within reasonable notice.
- Secondary listed companies remain eligible for the 50% discount on the annual listings fees.

For ease and convenience, enclosed in the attached price list are the Issuer Regulation documentation fees, which was distributed via email on the 30th of November to all Sponsors and Designated Advisors.
