Amendments to the JSE Listings Requirements: Reporting of alternative/ non IFRS measures

The JSE is proposing amendments to the JSE Listings Requirements (the "Requirements") relating to the reporting of various performance measures including alternative or non-IFRS measures and ratios.

The amendments along with an explanatory memorandum will be available on the JSE's website (Route: Companies & Issuer Regulation/Issuer Regulation – Announcements regarding Listings Requirements).

The amendments are largely in the form of the introduction of a new practice note 4/2019, which is then referenced from relevant sections of the Requirements. These should be read together with the explanatory memorandum.

We invite comments on the amendments to the Requirements by close of business, Monday 1 July 2019, and comments can be sent directly to consultation@jse.co.za.
