Trading Fees incentives (Excluding Providers):

Intra Day trading:

To encourage same day trading activity, the JSE has committed to zero fee one leg of all intraday trades (lesser in quantity of the two). The member needs to send an email to zerofee@jse.co.za requesting zero fees. Please note, this email is to be received before 17H30 on the trade date.

Spread trades:

All near legs traded via the Spread trading window are zero rated automatically by the trading system and only the far dated trade legs are charged for.

Cross Market trades (Commodity and Currency market):

If a client wants to trade gold (oil, platinum, Chicago corn, etc), then when booking the trade the Commodity market and the Currency Derivatives market will charge the normal fees when entering into the contract. However, when exiting this combined strategy trade both the respective markets will zero the resultant closing trade. Participants will need to inform the exchange of the trade (zerofee@jse.co.za), so the zero fees can be applied accordingly.

Option structures:

The JSE has agreed to halve the fees across the entire option structure where two or more legs are traded simultaneously. The member merely needs to send an email to zerofee@jse.co.za requesting half of the structured trade to be zero rated, including the following information in the email: the JSE reference number, contract details, price and client code. Please note, this email is to be received before 17H30.

Cross Currency trades (Synthetic crosses):

Cross currency pairs can be traded synthetically on the JSE and the JSE has committed to apply fees on only one of the foreign currency legs of the cross-currency trade. To promote cross-currency trading, the JSE will charge on the maximum fee from one leg.

E.g. The Euro/Dollar – if the fees are R700 for the Euro contract and R1,000 for the Dollar contract, a fee of R700 will be levied.

The market will need to send an email to zerofee@jse.co.za requesting one leg of the trade to be zero rated, including the following information in the email: the JSE reference number, contract details, price and client code. Please note, this email is to be received before 17H30 on the trade date, otherwise the one leg cannot be zero fee'd.

If you would like any further information or clarity on any of the information provided, please email irc@jse.co.za
