

JANUARY'S HIGHLIGHTS

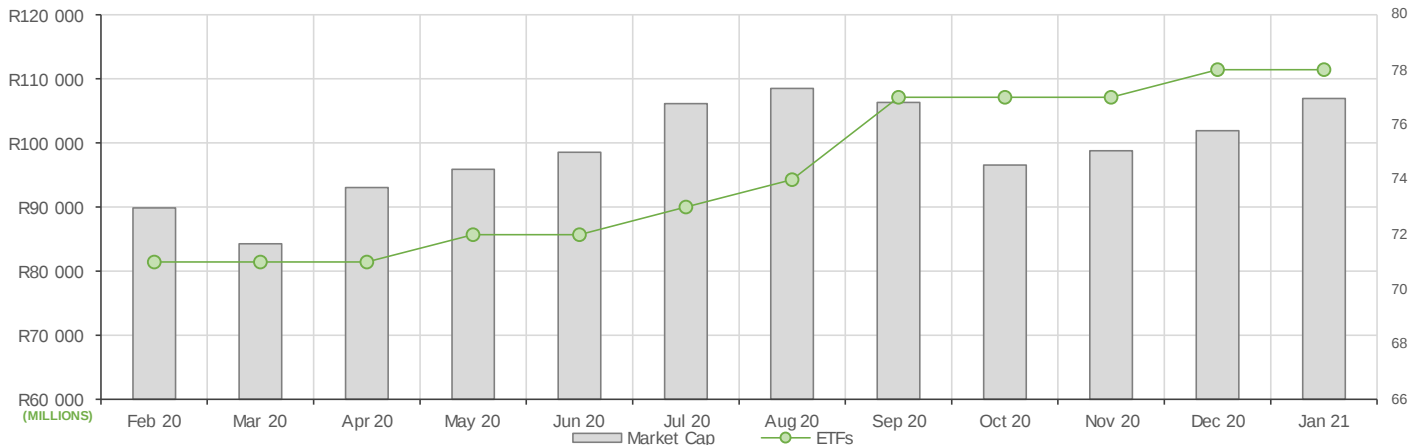

January reflected increased ETF activity compared to December, here is what we have seen:

- ETF Market Capitalization showed a 5% increase month-on-month. The upward shift was driven largely by ETF unit creations in some commodity ETFs, especially gold and upward price movements across most ETFs.
- ETF unit redemptions reflected mostly in SA Equity ETFs.
- Month-on-month ETF value traded was noticeably more compared to December's activity, reflecting roughly R7.5bn in total value traded during January, approximately R2bn more compared to the December's activity.
- Month-on-Month ETF returns showed largely positive performances across global equity ETFs.
