

TERENCE MURASIKI

ACADEMIC QUALIFICATIONS & EXPERIENCE:

- Master of Business Administration
- Certified Information Systems Auditor
- Certified in Risk & Information Systems Control
- Bachelor of Commerce
- Associate Member: Institute of Risk Management SA ("IRMSA")
- Total experience – 25 years

" I have spent a significant amount of time researching, advising and mentoring organisations and individuals in risk management. I have researched and developed the attribute-based maturity index, a risk implementation and competency development model that continues to grow in both organisational uptake and scope over the years. Learning and development interventions in risk management should be an opportunity to re-define our risk management agenda in light of the unique environment in which we operate as well as the needs, challenges and obligations in this ever-changing risk landscape"

Contributions to Global Body of Knowledge & African Intellectual Property:

- Author: Attribute Based Maturity Index *for Risk Management* ("ABMI")
- Developer: ABMI self-assessment portal

Most Recent Projects/ Roles:

- 2006 – Date: ABMI Research Institute & the Treten Group (Director)
- 2020 – Date: Board Advisor: Governance, Risk & Compliance (Southway Refractories)
- 2018 – Date: S. Africa Head: Thought Leadership (Global Institute of Risk Mgt - London)

- 2003 – 2006: Project Risk Auditor (Nedbank Group)
- 2000 – 2002: Deputy Divisional Manager - Internal Audit (Zimnat Insurance Group)
- 1995 – 2000: Senior Auditor (Deloitte)

Terence Murasiki is a strategy, technology, risk management and audit professional. He has previously worked for Deloitte in technology and general assurance and has worked for SNG Grant Thornton as a senior manager (corporate governance services). He also worked in the project assurance and innovation space within Nedbank Group where he was involved in a diverse range of strategic bank projects.

Terence is a renowned and articulate professional speaker and advisor who has been quoted by business press, corporate journals and presented at several provincial, national and sector-related conferences in varied technical subject areas. He currently advises a range of clients in Africa in the strategy, risk and technology fields.

Since 2012 and on an ongoing basis, he has researched and authored the attribute-based maturity index (“ABMI”), a global risk management standard and benchmarking model which is used by several large organisations as well as small-to-medium enterprises in South Africa.
