Exceeding	R50 000 000 000	R3 922 128.36	R4 510 447.61

The monetary value of securities for which application for listing is made will be determined as follows:

- (i) The number of securities for which application for listing is being made, is multiplied by the issue price per security
- (ii) in respect of capitalisation issue, where no market related price is attributable to the securities to be listed, they will be deemed to have a value calculated by multiplying the number of securities listed by the closing price on the declaration date; and

- (iii) in respect of introductions, where no price is attributable to the securities, they will be deemed to have a value calculated by multiplying the number of securities listed by the closing price on the first day of trading.
- c. The fees are payable at the time of application except in the case of an introduction when they are due on the day following the first day of trading after listing.
- d. In respect of share incentive and share option schemes adopted by companies, the JSE will grant a block listing (being an application for a total monetary value of securities to be listed in future) for securities issued in terms of those schemes in future. The appropriate fee will be calculated in accordance with the sliding scale detailed above (initial listing fees table) or below (additional listing fees) and will be payable at the time of the application for the block listing. Subsequent issues of securities in terms of the scheme will be subtracted from the initial block until such time as that block is exhausted, at which time an application, together with the appropriate fee, will become necessary.
- e. For those companies that do not wish to purchase a block listing, the following will apply:
 - a) The minimum fee of R2 166.66 (including VAT) will be charged per application for securities to be listed not exceeding a monetary value of R500 000; and
 - b) Applications for the listing of securities that exceed the monetary value of R500 000 will be charged per application in accordance with the sliding scale detailed under initial listing fees (above) or additional listing fees (below).
 - c) Please note there is a slight difference between the tables for initial and additional listing fees. Initial listing fees are due on the initial listing of the security, while additional listing fees are due should further securities be listed on a later date.
- f. Notwithstanding the above, no listing fee shall be payable in respect of the listing of a new security by a listed company that is issued as a direct replacement for a security of that company which is already listed and in respect of which a fee has been paid in terms of paragraphs (a) to (e) above.
- g. In terms of convertible bonds being converted into shares, the JSE will allow for a 30% discount on all tranches issued for the specific purpose of converting the bonds into ordinary shares. This discount will apply exclusively for changing convertible bonds into equity, and will not apply to other convertible instruments e.g., convertible preference shares.

Annual Listing Fees for Companies: Main Board

a. In respect of each class of security listed, an annual listing fee shall be payable (except during the calendar year in which the first listing of securities is granted) in February of each year.

b.

Market Capitalisation (ZAR millions)		Fee Structure		
		Minimum (Inc VAT)	Variable on Remainder (per million)	Maximum (Inc VAT)
0	100	R67 000.00		R67 000.00
100	300	R67 000.00	R480.00	R163 000.00
300	1000	R163 000.00	R281.43	R360 000.00
1000	5000	R360 000.00	R22.50	R450 000.00
5000	and above	R450 000.00	R5.80	R605 000.00

- (i) The fee can be calculated as follows:
- Market capitalisation is calculated by taking the average market capitalisation of the securities over the previous year
 - Find the corresponding market capitalisation tier for the security
 - Multiply the residual amount of market capitalisation that exceeds the lower limit of the tier by the variable charge (remember that the variable charge is per million)
 - Add the result of the above calculation to the minimum fee for the appropriate tier
 - Notwithstanding the above, where more than one of the aforesaid classes of securities are listed, the issuer shall pay the higher annual listing fee only. If a listing is terminated on or before 30 June, 50% of the annual listing fee paid will be refunded to the issuer. If the class of security has only a secondary listing on the JSE, 75% of the appropriate annual listing fee is payable. These discounts will be extended to companies listed on the Main Board, Alt-X and those in the empowerment segment.

Main Board Annual Fee Example:

Company with a market capitalisation of R350 million

= ((350 million – 300 million)/1 million)*281.43+ R163 000.00

= R177 071.50 (Including VAT)

- (ii) In respect of issuers with preference shares listed, an amount of R17 116.89 (including VAT); and
- (iii) In respect of issuers with debentures or loan stock listed, an amount of R8 573.22 (including VAT).
- b. A listing of securities may be suspended and ultimately terminated unless fees that are due, are paid within one month after written notice of demand has been given to an applicant issuer by the JSE.
- c. Documentation fees are covered in the Issuer Regulation Documentation Fees section.

Real Estate Investment Trusts (REITs)

- I. An additional Issuer Regulation annual documentation fee of R 21 917.89 (Inc VAT) is payable for any entities who have been granted REIT status on the JSE. This fee will be payable when the annual REIT compliance declaration is submitted.

Warrants & Structured Products (excluding ETFs, AMETFs and ETNs)

Fees for Warrants and Structured Products (excluding ETNs, AMETFs and ETFs) are set out below:

- a. Warrants and Structured Products (excluding ETNs, AMETFs and ETFs) listed under the Debt and Specialist Security Listings Requirements will be treated the same from a pricing perspective.
- b. The current documentation fee for listing an instrument and the annual fees in respect of such instruments will be replaced by a “package” model as set out in the table below.
- c. Issuers will pre-pay for warrants or structured products which must be issued during the course of the financial year (i.e. January to December). New ISIN issuances constitute new instrument listings.
- d. Unused warrants or structured products will expire at the end of the period. If an issuer requires additional warrants or structured products to be issued, the issuer can elect to pay either an ad hoc fee per additional instrument, purchase an additional package, or pay the difference between the value of the package that was originally purchased and the value of a larger package.

250+		R7 015
Additional (+1)	Ad hoc	R35 073

- e. A new warrant or structured product placing document will attract a documentation fee of R125 677.81 (including VAT).
- f. An amendment to a pricing supplement for a warrant or structured product will attract a documentation fee as set out in the documentation fees table.

Exchange Traded Notes (ETNs)

- a. ETNs will attract the same fees as outlined in the debt securities section.

Actively Managed Certificates (AMCs)

- a. Please refer to the documentation fees table commencing on page 13
- b. An annual maintenance fee of R17 730.69 (Including VAT) is also applicable.

Exchange Traded Funds (ETFs) and Actively Managed ETFs (AMETFs)

- a. The issuer of a new ETF or AMETF placing document (i.e. programme memorandum or offering circular) will be charged a documentation fee of R 125 677.81 (including VAT) for the listing of the ETF or AMETF placing document.
- b. The listing of an ETF through a supplement to the programme memorandum and amendments to the supplement will be charged a documentation fee as per the documentation fees table commencing from page 13.
- c. An annual listing fee shall be payable each year the ETF is listed. The annual fee calculated at 1 basis point of the ETF value with a maximum of R 599 038.10 (including VAT).

South African Depository Receipts (SADRs)

- a. Sponsored Depository Receipts will be charged on the same basis as an issuer of equity securities per the first four sections of this document. SADRs will not incur additional listing fees on an ongoing basis, save for an increase in the programme size, and will only attract initial listing fees, documentation fees and annual listing fees.
- b. Unsponsored Depository Receipts will be charged a documentation fee of R24 168.80 (Inc VAT) and an

initial listing fee of R 21 228.32 (Inc VAT) on listing.

- c. Annual fees on the Un-sponsored Depository Receipt have been waived until further notice.

Debt Securities

- a. Debt securities attract documentation fees at the time of the initial listing on the JSE Limited, and on-going annual fees to maintain the listing.
- b. All new debt securities listed, placing documents registered and amended, or tranches issued under a programme attract the fees as outlined below. These fees are billed in the month of listing.

Initial Listing Fees & Issuances: Debt Securities

- a. Please refer to the documentation fees table commencing from page 13.

Annual Maintenance Fee: Debt Securities (Per Security)

- a. Instruments issued with a maturity of less than 367 days will attract no annual fee, however instruments that are issued with a maturity of more than 366 days will be charged an annual maintenance fee of R17 730.69 (Inc VAT).
- b. Each issue, regardless of whether it is listed under a programme, or an offering circular will attract the above fees, and no exemptions or discount exists for equity board listed instruments.

ISSUER REGULATION DOCUMENTATION FEES

Documentation fees and advisory fees are charged by the JSE's Issuer Regulation Division to cover the regulatory costs of screening and documenting the instruments that are listed on the exchange. For more information on the below fees please contact listing@jse.co.za

Currency Derivatives

Connectivity Fees

An amount of R1 402.92 (Ex VAT) charged monthly. This is a standard fixed fee and is regardless of the number of CompID's utilized by the participant.

Market Maker billing model

The model below recognizes the contribution of market-makers, and the fee model aims to incentivize the continuous growth of the market.

All prices below are exclusive of VAT

Currency Futures and Options	On Screen - Qualified	Maxi On Screen Qualified	On/Off Screen Non-qualified	Maxi On/Off Screen Non-qualified
Fee per contract	R 0.22	R 22.00	R 0.44	R 44.00
Cap per deal	R 26 755.74	R 26 755.74	R 26 755.74	R 26 755.74

In order to qualify for the on-screen fee incentive, the provider will have to meet the below qualifying criteria:

- All contracts will be divided into two categories, namely Category A and Category B contracts:
- **Category A:**
 - Category A comprises of the five most liquid instruments, where there are at least two providers making two-way prices on-screen in both the **near** and **middle** expiries.
 - These contracts and expiries form a part of the obligation to earn the beneficial pricing incentive.
- **Category B:**
 - Category B comprises of the least liquid instruments
 - These contracts and expiries do not form a part of the obligation to earn the beneficial pricing incentive, however, if a provider meets the minimum criteria in one of these expiries, the beneficial pricing will be applied.

	Category A	Category B
Near & Middle Expiries:		
USD/Rand	✓	
USD/Rand Maxi	✓	
Euro/Rand	✓	
British Pound/Rand	✓	
Australian Dollar/Rand	✓	
Far Expiries:		
USD/Rand		✓
USD/Rand Maxi		✓
Euro/Rand		✓
British Pound/Rand		✓
Australian Dollar/Rand		✓
All other listed currency pairs (all expiries)		✓

- The minimum qualifying criteria to which the providers will need to commit are as follows:
 - Must make two-way prices in the **near expiry of every liquid currency contract.**
 - Must make two-way prices in the **middle expiry of every liquid currency contract.**
 - Minimum quote size of 100 contracts for category A instruments and expiries, 50 contracts for category B instruments and 5 contracts for the USD/Rand Maxi.
 - Measurement will take place from start of day at 09h00 up until market close at 17h00.
 - Between **09h00 – 10h00** and between **16h00- 17h00**, providers must make prices for a **minimum of 85% of each period for the trading month.**
 - Between **10h00 – 16h00**, providers must make prices for a **minimum of 80% of this time period for the trading month (and not including the two periods above).**
 - The above will be monitored per Currency contract and per expiry.
 - On close out day the contract will be monitored up until the close of the contract (16h00 or 17h00 depending on daylight saving time).

**Please note that the qualifying criteria is subject to change.*

If the providers do not meet their on-screen obligations, they will pay the maximum possible fee (e.g. R0.44c per contract) as if they had traded a report only trade. The maximum fee is still lower than the average of the sliding scale that was applied previously. The JSE will invoice providers at the end of each month based on how they traded and whether obligations were met.

Billing rules for Currency Derivatives Trading Fees

Functionality	% Fee Discount
Option Exercise	100%
Option Abandon	100%
Assign	50%
Allocate	100%
Auto close	100%
Roll trades	50%
Tripartite	50%
Same day Trade Cancellation	100%

1. **Roll trades** – Fee discount applied on each leg
2. **Same day Trade cancellation** – Fee discount applied on condition the trade cancellation functionality is utilised
3. **Next day Trade cancellation** - For valid corrections of erroneous trades or allocations on T+1, a value-based trade fee with a cap of R 895.22 per leg (Ex VAT) will apply. This capped fee will apply to the equal and opposite or reversal trade as well as the new correction trade or allocation. The JSE will verify that the trades booked on T+1 to correct erroneous trades or allocations are bona fide corrections and qualify for the aforementioned fee treatment.
4. **Autoclose trades** - 100% discount on autoclose trades only applies to Market Makers

Trading Fee Incentives for Currency Derivatives

Cross Currency Trades (Synthetic Crosses)

Cross-currency pairs can be traded synthetically on the JSE and the JSE has committed to apply fees on only one of the trade legs of the cross-currency trade. Fees will be waived on the lower fee between the two trade legs.

The market will need to send an email to zerofee@jse.co.za requesting one leg of the trade to be zero rated, including the following information in the email: the JSE reference number, contract details, price and client code.

Please note, this email is to be received before 17H30 on the trade date in order to allow for the fee exemption to be applied.

If you would like any further information or clarity on any of the information provided, please email irc@jse.co.za
