The ombud must, at the request of any party to the dispute, provide written reasons for his decision.
- 5.100.13 The ombud's decision will be furnished to the parties in writing.
- 5.100.14 The ombud is not obliged to provide a ruling on a dispute if he is of the view that the dispute is of such a complex nature that it cannot be resolved expeditiously by means of the dispute resolution process and can only be properly considered by a court of law.
- 5.100.15 Any decision made in terms of rule 5.100.13 must be complied with by the party against whom the decision is made within seven days of the decision having been made by the ombud.
- 5.100.16 Unless the JSE, the ombud and the parties to the dispute agree otherwise, the identity of the parties, the nature of the evidence and the details of the ombud's deliberations and finding, and all other information pertaining to the proceedings will be kept confidential by all parties thereto, unless disclosure by the JSE is required by law.

7.125 Transactions with inter-dealer brokers

An inter-dealer broker performs an important function in relation to the determination of market prices of bonds listed on the JSE. Therefore it is important that inter-dealer brokers are subject to these IRC rules in relation to the intermediary services that they provide to trading members and clients. Accordingly, a trading member may not trade in bonds with a person whom the trading member knows or has reason to believe:

- 7.125.1 would be performing the function of an inter-dealer broker in relation to the relevant transaction; and
- 7.125.2 is in turn transacting with another trading member or any other resident on the opposite leg of the transaction,

if that person is not authorised as an inter-dealer broker in terms of these IRC rules.

7.130 Trade cancellations

- 7.130.1 A key component of market integrity is the assurance that once executed, a trade will stand and will not be subject to cancellation. However, if a trade is executed as a result of an error by a trading member or its client, there may be significant adverse consequences for the affected trading member or client and therefore it is appropriate in certain circumstances to correct such errors.
- 7.130.2 Therefore notwithstanding any other provision of these rules or any directive, the Director: Market Regulation may, where in his opinion a central order book trade has been matched as a result of a clear error grant permission to or instruct the affected trading member or trading members to effect a trade cancellation.

7.130.1 amended with effect from 9 May 2011

- 7.130.3 A request for an alleged error trade to be cancelled in terms of these rules will be considered provided that the request meets at least the following requirements:
- 7.130.3.1 the nature of the error is that the order submitted to the JSE trading system is different to that which the trading member or its client intended to submit at the time that the order was submitted; and
 - 7.130.3.2 the request is received by the Director: Market Regulation within 20 minutes from the time of the erroneous trade; and
 - 7.130.3.3 the price or contract value of the trade or trades executed in error is away from the reference price at the time that the error occurred by more than the Rand value or the percentage used to determine the no cancellation range as set out in the directives; and
 - 7.130.3.4 the difference between the aggregate consideration or contract value of the trades that qualify in terms of 7.130.3.3 and the consideration or contract value that would have resulted had such trades been executed at the futures or the options reference price is R50 000 (fifty thousand Rand) or more; and
 - 7.130.3.5 a passive order which has been entered into the central order book and which gives rise to an alleged error trade will only be considered for cancellation where it has been matched within 30 minutes of having been entered.
- 7.130.4 In making the determination as to whether an alleged error trade qualifies for cancellation in terms of rule 7.130.3, the Director: Market Regulation will also consider whether the reference price at the time that the error occurred is a representative fair value price for the relevant contract at that time. In this regard, the Director: Market Regulation will take into account all relevant factors which shall include, but not be limited to -
- 7.130.4.1 the market price level in the relevant underlying JSE cash market immediately prior to the error trade, if applicable;
 - 7.130.4.2 the price movements in other expiry dates of the same contract;
 - 7.130.4.3 in the case of options, where the volatility of trades which have occurred prior to the alleged error trade on that day, either in the same option contract or in option contracts at different strike prices for the same expiry date and on the same underlying instrument, indicates that market volatility levels have materially changed since the previous day's mark to market;
 - 7.130.4.4 current market conditions, including volatility and liquidity; and
 - 7.130.4.5 the release of economic data and other relevant news affecting the relevant security.
- 7.130.5 In exceptional circumstances, and after taking all relevant factors into account as provided for in rule 7.130.4, the Director: Market Regulation may make a determination that the futures or the options reference price at the time that the error occurred is not representative of the fair value for the relevant contract at that time and will deem another price, being a fair value price, as being more appropriate for the determination as to whether the alleged error trade qualifies to be cancelled.
- 7.130.6 If the Director: Market Regulation determines that the reference price at the time that the error occurred is the appropriate price to use in determining whether the alleged error trade qualifies to be cancelled, the error trade must meet the criteria set out in rule 7.130.3 in order for it to be cancelled.
- 7.130.7 If the Director: Market Regulation determines that a fair value price is the appropriate price to use in determining whether the alleged error trade qualifies to be cancelled, the error trade must meet the

criteria set out in rule 7.130.3 in order for it to be cancelled except that, as regards the criteria in rules 7.130.3.3 and 7.130.3.4, the fair value price will be used instead of the reference price.

- 7.130.8 Where the Director: Market Regulation determines that an erroneous trade needs to be cancelled, the trade will be cancelled in terms of the process set out in the directives.
- 7.130.9 Where an off book transaction has been reported to the JSE trading system in error in that the terms of the transaction differ to those that were agreed to by the counterparties to the trade before the reporting of the trade, the trading member or trading members shall be permitted to:
- 7.130.9.1 cancel an erroneous trade in currency derivatives on the JSE trading system; or
- 7.130.9.2 report an equal and opposite cancellation trade in bonds or interest rate derivatives to the JSE trading system;
- on the same day that the erroneous trade was reported.
- 7.130.10 If, in the opinion of the Director: Market Regulation, an on book trade, auction trade or off book transaction materially impacts the integrity of the market, the maintenance of a fair and orderly market or the correctness of the market statistics, the Director: Market Regulation may cancel a trade executed in error, even where there has been no request from a market participant to do so.
- 7.130.11 If the JSE trading system experiences technical problems and matches orders that should not be matched, whether before the JSE is able to halt trading on the JSE trading system or subsequent to the resolution of the technical issue, requests for cancellation of such resultant matched trades may be submitted to the Director: Market Regulation if the trading member was unable to delete or amend their order as a result of the technical problems. Where a request is received from a trading member to cancel a trade resulting from such a match because the trading member did not intend to retain the relevant order in the central order book at the time that it was matched, the Director: Market Regulation may deal with the trade as an error trade in terms of this rule 7.130 and may authorize a trade cancellation.
- 7.130.12 In considering an error trade in terms of rule 7.130.11, the Director: Market Regulation will apply all of the relevant provisions of this rule 7.130 except that instead of applying the criteria in rule 7.130.3 in determining whether the trade qualifies for a trade cancellation, the Director: Market Regulation will only consider whether -
- 7.130.12.1 the price of the relevant trade was outside of the no cancellation range relative to the reference price at the time that a confirmation of the trade was sent to the trading member; and
- 7.130.12.2 the request is received by the Director: Market Regulation within 20 minutes from the time that a confirmation of the trade was sent to the trading member.
- 7.130.13 Where consequential trades have occurred as a direct result of an error trade, such as spread trades, the Director: Market Regulation will consider these on a case by case basis and may, after taking into consideration all relevant factors and circumstances, instruct the trading member or trading members to execute a trade cancellation or may make a determination that the consequential trades shall stand.
- 7.130.14 Notwithstanding any provision of rule 7.130, in considering a request from a trading member in terms of this rule, the Director: Market Regulation may decide that the alleged error trade and any consequential trades shall stand and shall not be cancelled. In arriving at his decision the Director: Market Regulation will take into account all relevant factors which shall include, but not be limited to:
- 7.130.14.1 the complexity and extent of any consequential trades in futures or options or trades in underlying JSE cash markets which have been triggered by the alleged error trade; or

7.130.14.2 the amount of time remaining in the trading session or before the expiry of the relevant futures or option contracts within which the JSE would be required to investigate, evaluate and conclude on the merits of an alleged error trade and any consequential trades, as well as give effect to any consequential trade cancellations or; and

7.130.14.3 the best interests of the affected market participants.

7.140 Emergency provisions

7.140.1 In order that the business of the JSE be carried out with due regard to the interests of the public in a fair and orderly market, the JSE may, in addition to the powers given in terms of the Act in circumstances of emergency, restrict or suspend trading in any or all of the instruments kept by it in its list of IRC securities for such period as the JSE may deem necessary.

7.140.2 Circumstances of emergency shall include but are not limited to the closing of any other exchange, a state of war or threatening hostilities, acts of state affecting the IRC markets or the due performance of transactions or any position, any change in the law affecting the IRC markets or the due performance of transactions or positions and any other situation or circumstances affecting, in the opinion of the JSE Executive, a fair and orderly market for the trading in IRC securities.

7.140.3 If the trading in any security or commodity on any exchange or market ceases, the JSE Executive shall consider the cessation of trading in IRC securities for which such security or commodity comprises the underlying instrument of the IRC Security concerned.

7.140.4 In the event of any of the circumstances contemplated in this rule 7.140 occurring, the Executive Officer shall notify the Registrar of such circumstances and shall co-operate with the Registrar to restore and maintain a fair and orderly market.
